**Period for Reply**

**A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.**

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

## **DETAILED ACTION**

### ***Oath/Declaration***

The declaration is objected to under 37 CFR 1.63 as being an improper continuation application. The matter in claim 27 was not presented in the prior application. The declaration must be changed to reflect the additionally recited subject matter and state that this application is a continuation-in-part of Application No 09/760,215.

### ***Specification***

The specification is objected to under 37 CFR 1.63(d)(iii) and 37CFR 1.78. The applicant has improperly stated that this application is a continuation of prior Application No. 09/760,215. Because this application adds additional disclosure (claim 27), it must be changed to a continuation-in-part application instead of a continuation.

### ***Allowable Subject Matter***

Claims 1-27 are allowed.

### ***Response to Arguments***

Applicant's arguments filed 6-23-04 have been considered but are not persuasive. The example on page 8 of the specification requires steel powder in the amount of 30 phr to be present in the inner cover layer. However, the claims recite at

Art Unit: 3711

least 10 parts of a density increasing filler in the inner cover layer. The specification does support a specific gravity of 1.18 and 30 phr of filler but does **not** support at least 10 parts of the filler. Therefore, the objection to the declaration and specification is maintained.

Please be advised amended claim 27 is not amended properly. Any deleted portion of the claims should have a strike-through line and should not be literally deleted ("or less" was deleted). Future amendments will be held non-responsive.

### *Conclusion*

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
